PROFESSIONAL EXPERIENCE

Software Engineer   June 2021 - Present
Everest Solution LLC

• Led the end-to-end development of 20+ custom mobile applications across diverse industries, consistently exceeding client expectations and delivering tailored solutions that addressed unique business challenges.
• Reduced mobile app development time by 50% by architecting and maintaining a shared codebase using Git submodules, streamlining collaboration and code reuse across projects.
• Enhanced system efficiency by 40% through the implementation of MSSQL mirroring and replication strategies for report databases, optimizing data management and reliability.
• Automated and improved service monitoring and deployment processes by integrating Docker, Prometheus, and Bash scripting, resulting in higher operational efficiency and system reliability.

Billing Engineer   January 2020 - November 2021
Unitel LLC

• Spearheaded the development of the innovative "Ger Duuren" project, integrating LTE internet with satellite digital TV to serve subscribers lacking fiber optic access. Designed and implemented subscription plans within the core system and developed a CRM platform to efficiently manage these combined services, resulting in a 35% increase in subscriber engagement and a 25% revenue growth in the first year.
• Led the enhancement of the billing CRM system to meet evolving business demands, boosting system efficiency by 30% through performance tuning and improved responsiveness.
• Architected and developed API-based microservices to enable seamless data exchange between system components, improving overall integration efficiency by 45%.
• Optimized and maintained complex Oracle SQL queries for billing calculations, significantly enhancing the accuracy and speed of financial data processing.

Front-End Developer /Intern/   August 2018 - January 2020
Retoch LLC

• Played a key role in the end-to-end development and successful launch of a mobile eCommerce application on both the App Store and Google Play Store, expanding the client's digital presence and customer reach.
• Designed and implemented engaging landing pages and dynamic banners, enhancing the app's visual appeal and simplifying the product ordering process, which contributed to improved user engagement and conversion rates.
• Developed a customizable Dashboard Portal for efficient order management, streamlining order processing and resource allocation, resulting in increased productivity and operational efficiency.

SKILLS

NodeJS • Typescript • Javascript • C# • .NET • .NET MAUI • Angular • NextJS • React • Express React Native • Tailwind • Oracle • MongoDB • MSSQL • Postgres • Firebase • AWS • Docker • Git • MVC • Photoshop • Illustrator • Xd • Figma

EDUCATION

MONGOLIAN UNIVERSITY OF SCIENCE AND TECHNOLOGY   August 2016 - January 2020
Bachelor of Computer Science in Information Technology, GPA: 3.7
